Collège de médecins

**Patient survival - dialysis patients**  
Kaplan Meier method

- cohort 2006-2010
- cohort 2008-2012
- cohort 2011-2015

**Kidney graft survival – transplant patients**  
Kaplan Meier method

- deceased donor - cohort 2008-2012
- deceased donor - cohort 2011-2015
- living donor - cohort 2008-2012
- living donor - cohort 2011-2015

**Survival analysis : patient survival of dialysis patients & kidney graft survival in transplant patients (deceased and living donor) - comparison of different cohorts**

*Analysis made by the ERA-EDTA registry*

Collège de médecins

**Patient survival - dialysis patients**  
renal disease = diabetic nephropathy  
Kaplan Meier method

— DM - cohort 2008-2012  
— DM - cohort 2011-2015

**Kidney graft survival – transplant patients**  
renal disease = diabetic nephropathy  
Kaplan Meier method

— DM - deceased donor - cohort 2008-2012  
— DM - deceased donor - cohort 2011-2015

**Survival analysis : patient survival of dialysis patients & kidney graft survival in transplant patients (deceased donor) - comparison of different cohorts**  
*Analysis made by the ERA-EDTA registry*

Collège de médecins

Expected remaining lifetime (years) for general population, patients on dialysis & patients living with a transplant - Belgium

Analysis made by the ERA-EDTA registry
