

Amyloidosis

SYMPOSIUM

FRIDAY, DECEMBER 17TH, 2021
DOLCE LA HULPE

Systemic amyloidosis (AA, AL and ATTR) is a group of diseases in which abnormal proteins build up in tissue. There are many different ways of manifestation of this disease. The diagnosis is complex, but important for correct treatment. Systemic amyloidosis requires a multidisciplinary collaboration between the different medical specialists. With this symposium we want to bring different specialists together to provide state-of-the-art insights in pathogenesis, diagnosis and management of amyloidosis.

"Latest Diagnostic & Treatment Strategies in Amyloidosis"

Prof. Dr. Antoine Bondue

"Cutting edge knowledge on diagnosis and treatment of all types of amyloidosis by multiple medical disciplines"

Prof. Dr. Kristl Claeys

"After many years of stagnation, finally there are major therapeutic breakthroughs for patients with amyloidosis"

Prof. Dr. Michel Delforge

"Heart involvement at the time of diagnosis, an adverse prognosis factor for amyloidosis"

Prof. Dr. Anne-Catherine Pouleur

REGISTRATION

Please register **before December 1st** via www.amyloidosis-symposium.be

Accreditation has been requested

Participation is free of charge but not without obligation. If you are unable to participate, please inform us at least 5 days before the symposium. This allows us to offer your place to one of your colleagues. Thank you. Be assured that all covid-19 guidelines will be strictly followed.

Amyloidosis SYMPOSIUM

FRIDAY, DECEMBER 17TH, 2021

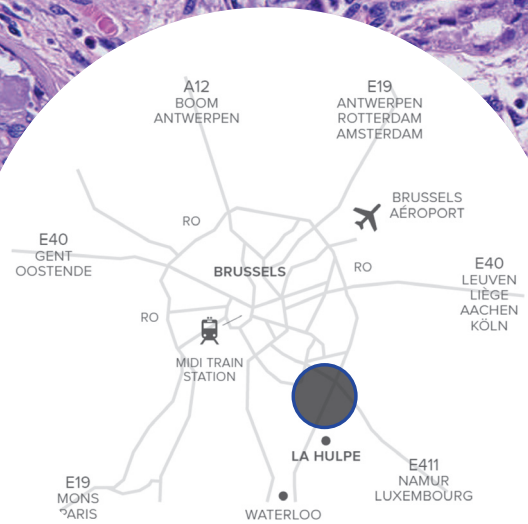

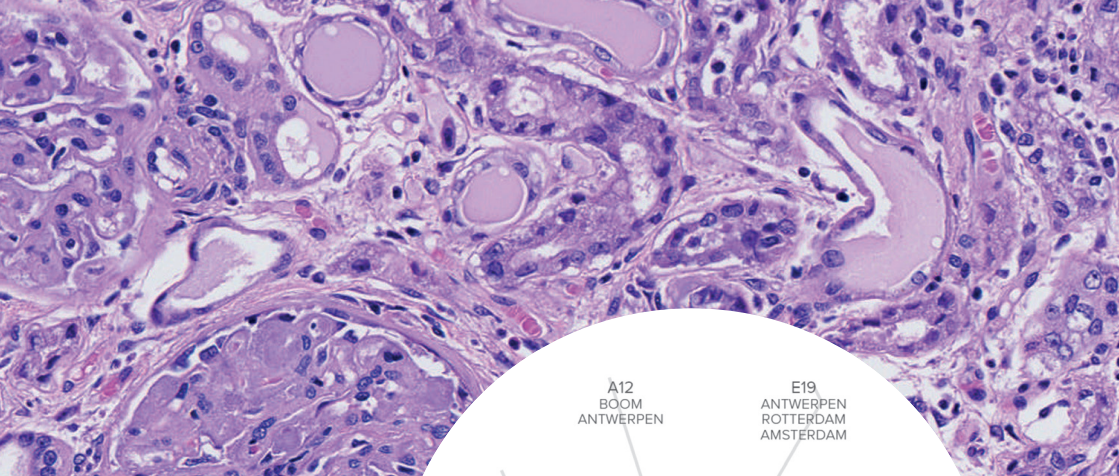

Dolce La Hulpe - 135, Chaussée de Bruxelles - 1310 La Hulpe

CHAIRS

- **Prof. Dr. Antoine Bondue**, Cardiologist, Hôpital Erasme, Université Libre de Bruxelles
- **Prof. Dr. Kristl Claeys**, Neurologist, UZ Leuven, KU Leuven
- **Prof. Dr. Michel Delforge**, Hematologist, UZ Leuven, KU Leuven
- **Prof. Dr. Anne-Catherine Pouleur**, Cardiologist, Cliniques universitaires Saint-Luc, UC Louvain

PROGRAM

12:15	Welcome lunch
12:55	Introduction by the program chairs
13:00	Pathophysiology of amyloidosis Prof. Dr. Frederic Rousseau , VIB Switch Lab
13:30	Histology-based diagnosis of amyloidosis Prof. Dr. Amélie Dendooven , UZ Gent
14:00	Imaging of amyloidosis Prof. Dr. Olivier Gheysens , UCL
14:30	How to take care of patients with cardiac TTR amyloidosis Prof. Dr. Antoine Bondue , ULB & Prof. Dr. Anne-Catherine Pouleur , UCL
15:15	Break
15:45	How do I treat AL amyloidosis? Prof. Dr. Michel Delforge , UZ Leuven & Prof. Dr. Nathalie Meuleman , Institut Bordet
16:30	Neurological manifestations of amyloidosis: diagnosis and treatment Prof. Dr. Kristl Claeys , UZ Leuven & Prof. Dr. Gauthier Remiche , ULB
17:15	Amyloidosis and the kidney Prof. Dr. Ben Sprangers , UZ Leuven & Dr. Marie-Laure Cambier , UZ Brussels
18:00	Summary and conclusions
18:15	Closing drink

Dolce La Hulpe
135, Chaussée de Bruxelles
1310 La Hulpe
